

## Adding a Printer

Using these step-by-step instructions, you can easily add any printer to your Mac:

1. Go to 'System Preferences' and select the 'Print & Fax' icon.
2. From the 'Print & Fax' window, click the plus sign to add a new printer.
3. Enter the printer name in the 'Address' field (see the list in the following section).
4. In the 'Print Using' field, click "Select a driver to use..." and search for the appropriate driver (see the list in the following section).
5. Continue and click 'OK' for the default printer options.

## Print Drivers and Printer Names

Use this chart to enter the correct print drivers and printer names when adding a printer:

Print Driver	Printer Address
WorkCenter Pro 255	kresge-2f-1.bus.umich.edu
	kresge-2f-2.bus.umich.edu
	kresge-2f-3.bus.umich.edu
	wyly-2f-1.bus.umich.edu
	kresge-3f-1.bus.umich.edu
	kresge-4f-1.bus.umich.edu
	e1500-1.bus.umich.edu
	e0500-1.bus.umich.edu
	ross-ll-1.bus.umich.
	ross-ll-2.bus.umich.
	ross-ll-3.bus.umich.edu
WorkCenter Pro 3545	ross-ll-color-1.bus.umich.edu
	kresge-2f-color-1.bus.umich.edu
