

Kresge Library Instruction Exporting and Downloading from Mintel

General Notes On Using Mintel

- You need a personal Mintel profile (or account) to export or download report sections.
- You can select only one section of a report at a time for export.
- When you export, all the selected report sections will be combined into a single RTF (Rich Text Format) file. These files should work with all versions of MS Word
- Report sections tagged for export will remain in your account until you delete them
- You still must access Mintel via the links on the Kresge Library Web Site or http://www.bus.umich.edu/KresgeLibrary/secure-all/mintel.htm
