RESEARCH OVERVIEW

My scholarship has long been geared towards one overarching question of: “How can we best design and lead high-performing teams?” In my work, I often focus specifically on two key challenges to team performance: 1) power struggles and their roots in dysfunctional power structures, and 2) obstacles to the leveraging of diverse opinions in teams, including process

tensions, members taking work debates personally, and members misperceiving the diversity within their team. By identifying how to prevent or manage these two key challenges to team collaboration, my research seeks to show how teams can achieve their highest performance potential. In my work across these two key research areas, I seek to extend theories of team dynamics by challenging traditional assumptions in the literature (ie. the generalized functionality of hierarchy, or the sharedness of perceptions of team conflict), reconciling mixed findings (such as when diversity and/or task conflict help or hurt team performance), and unpacking underlying mechanisms (ie. showing why too many cooks in a kitchen hurts teams, yielding insight into targeted interventions to help such high-power teams). To enhance the internal and external validity of my research, I employ multiple methods, including laboratory studies, archival studies, and field studies (quasi-experiments, surveys, and qualitative).

Sanger Leadership Center, Faculty Director, University of Michigan, 2019-2025.

- Moved center from a handful of co-curricular programs to a meaningful two year leadership development experience for all graduate students at Ross, where year one is required for all students (Collaboration Lab) and year two is an elective credential for completing all of our opt-in programs
- Scaled leadership development program capacity by on average ~10% to serve more student interactions per year and to allow more students access to key programs
- Launched new flagship programs to improve key leadership skills and leadership frameworks to integrate programs
 - Launched new self-coaching leadership framework ("Sanger Leadership Journey"), programming, and supporting website and tools across school to integrate different leadership experiences, empower students to take charge

- of their leadership development journeys, and improve the quality of leadership development at the university
- Launched a new 6-week flagship program on leading diverse, inclusive, and equitable teams (L.I.T. – Leading Inclusive Teams) in the Graduate degree programs, serving 150+ MBA students in its first year
- Launched new flagship speaker series “Leadership Dialogues” which brings world leaders on stage at Ross to have a fireside chat with a Ross faculty member to explore bold ideas from Ross in action at the top - first speaker event with Mary Barra (CEO of GM) drew over 1000+ RSVPs
- Formalized leadership development offered at key required touchpoints (orientation at the start of the first graduate student year and our MAP project team experience at the end of that year) under the new ‘Collaboration Lab’ name, including revamped and expanded team-based skills curriculum for all graduate students
- Led center strategic professionalization including 5-year SWOT analysis and vision-crafting, yearly strategy and OKR setting, innovations in team processes (EACI frameworks, culture mapping and curation, etc), hiring of managing director position and restructuring of team leadership positions, and virtual pivots/team management during COVID-19
- Improved the reputation of Michigan Ross as ‘the’ place for leadership development, including expansion of brand management and marketing innovations
 - Innovations in brand management and external outreach and social media led to a 23% increase in social media followers, and over 9 million social media impressions
- Managed and expanded external relationships with companies, donors, and school stakeholders, including launch of corporate advisory board and fundraising campaign (increased yearly funds raised by 233%) and managing key relationship within the university including program offices, dean’s office, and advancement
- Built out research arm of center, including launch of Sanger’s research lab, hosting regular lab meetings to share early-stage research, hiring of Sanger’s first predoc/research lab manager, and offering a yearly Sanger research budget for faculty champions and students to accelerate the production of bold leadership ideas at the University of Michigan
