May 2021

There are countless awesome professors at our Ross School of Business. It's hard to pick one. But I was awestruck with Prof. Nagar's bold/unconventional teaching style as a part-time MBA student. He taught us some fundamental business concepts through theater style group class exercise. He gave us current business cases/online materials, and encouraged free/independent thinking to achieve higher goals. I think he is one of the brilliant/outstanding professors that I have met.

He let us think and learn. Not just waste time with COGS, and Income statements. Wanted us to lead, not just be minions/indentured servants at a consulting firm.

- Nominations recognizing the 2018 Neary MBA Teaching Award

Employment (US Citizen)
