Microsoft Office Communicator
Mobile Client 2007

Mobile Device and Software Requirements

Communicator Mobile can be installed on mobile devices (Pocket PC or Smart Phone) using Microsoft Windows Mobile ® 5.0 or Windows Mobile 6.0 Professional.

Either Microsoft ActiveSync® technology or Windows Mobile Device Center technology is required to install Communicator Mobile (2007 release) software on a mobile device that is running either Windows Mobile 5.0 or Windows Mobile 6.0.

ActiveSync version 4.2 or 4.5 can be downloaded at the following locations:

- ActiveSync 4.2: http://r.office.microsoft.com/r/rlidCoMo2?p1=DL_activesync42
- ActiveSync 4.5: http://r.office.microsoft.com/r/rlidCoMo2?p1=DL_activesync45

Windows Mobile Device Center will be used instead of ActiveSync if you are using a computer that is running the Windows Vista® operating system to install Communicator Mobile (2007 release) onto your mobile device:

- http://r.office.microsoft.com/r/rlidCoMo2?p1=DL_WMDC6.

Installation

In addition to the client hardware and software requirements described earlier in this guide, the following are prerequisites for installing the Communicator Mobile client:

- Remove all other versions of Communicator Mobile
- Download the Communicator Mobile Windows Installer package (.msi) in a folder that is not encrypted
- Ensure sufficient space on your mobile device – approximately 7.5 MB
- Verify the device is running either Windows Mobile 5.0 or 6.0
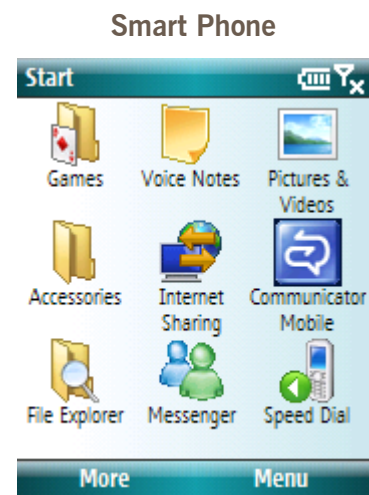

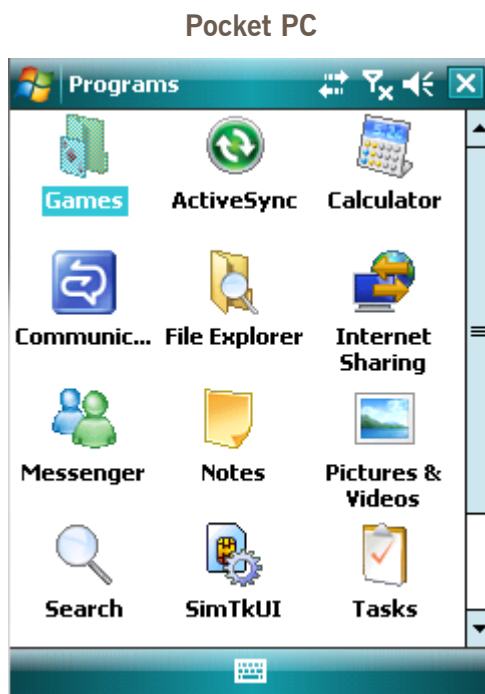

Using ActiveSync

1. Connect your mobile device to the computer running ActiveSync.
2. In Windows Explorer, double-click the **CommunicatorMobile.msi** Windows Installer file.
3. Follow the prompts to install Communicator Mobile.
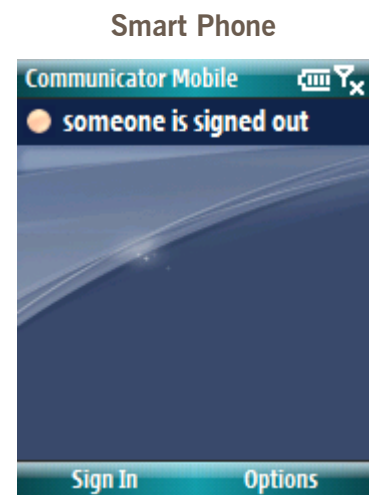

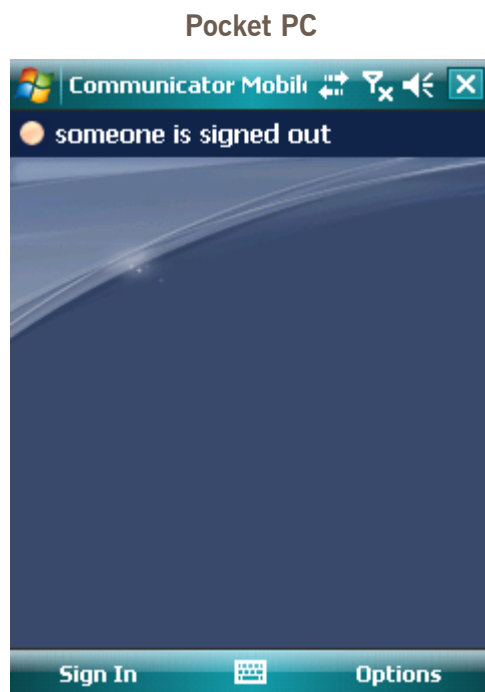

Using Windows Mobile Device Center

1. Connect your mobile device to the computer running Windows Mobile Device Center.
2. Copy the **CommunicatorMobile.msi** Windows Installer file to your computer.
3. Click **Start**, click **All Programs**, click **Accessories**, and then double-click **Command Prompt**.
4. At the command prompt, browse to the folder where you copied the Windows Installer file for Communicator Mobile.
5. Type the complete name of the Windows Installer file, and then press ENTER to start the installation program.
6. Follow the prompts to install Communicator Mobile.

Client configuration:

Open the Communicator Mobile icon.
